

## DUAL WIRELESS MICROPHONE SYSTEM

Geek One Mic is an extremely versatile and ultra-compact dual channel wireless microphone system consisting of a single receiver and two transmitters. Featuring a high-quality microphone built into each transmitter for completely wireless operation, flexible outputs for connecting to cameras, computers and smartphones, extended transmission range and much more, Geek One Mic is the perfect microphone for a wide range of content creation applications.

- Dual channel wireless microphone system
- 3.5mm TRS analog output, USB-C digital audio output
- In-built rechargeable lithium-ion battery—up to 9 hours battery life
- Ability to switch between mono or stereo output
- Up to 9 hours operating time
- 150m transmission range (line of sight)
- Anti-slip design for outdoor application

\* The distance result is tested by our lab at open side with no interference, different environment may have different distance result.

Acoustic Principle:	Pre-polarized pressure transducer
Polar Pattern:	Omnidirectional
Frequency Range:	20Hz – 20Khz
Maximum SPL (Mic):	100dB
Maximum Input Level (3.5mm):	-27dBV
Microphone Preamp Gain:	10dB
Power Requirements:	USB 5V/0.3A
Operating Time:	Up to 9 hours
Analog Inputs/Output	3.5mm TRS
Transmission Range:	150m
Computer Connectivity:	USB Type-C
Dimensions (millimeter):	TX: 44x45.3x18.3mm RX: 44x45.5x18.3mm
Included Accessories:	3 x Furry / 3 x USB-C 1 x TRS / 1 x TRRS

Wireless Gear For Your Outdoor Living With Style
